Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/577,014	Applicant(s) SANO, HISASHI	
	Examiner RANDOLPH CHU	Art Unit 2624	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. In response to applicant's amendment received on 9/23/2009, all requested changes to the claims have been entered. New claims 6-9 have been entered.

Response to Argument

2. Applicant's arguments filed on 9/23/2009 have been considered but they are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claim(s) 1-9 are rejected under 35 U.S.C. 102(e) as being anticipated by Aoyama et al. (US 2009/0046179).

With respect to claim 1, Aoyama et al. teach a region setting step for carrying out the partitioning so that the regions do not contain a straight line passing through an origin in the horizontal direction and a straight line passing through the origin in the vertical direction (para [0198], Fig. 18B), wherein the above step is performed by a processor (Fig. 1 ref label 10).

With respect to claim 2, Aoyama et al. teach a first setting step for carrying out the partitioning at a default size (uniform split); and second setting step for further partitioning first regions set in the first setting step when the first regions contain the straight line passing through the origin in the horizontal direction or the straight line passing through the origin in the vertical direction, so that neither of the straight lines is contained (para. [0197] - [0202]; Fig. 18B).

With respect to claim 3, Aoyama et al. teach a first setting step for carrying out the partitioning at a default size (uniform split); and a second setting step for changing the size of all the first regions set in the first setting step when any of the first regions contain the straight line passing through the origin in the horizontal direction or the straight line passing through the origin in the vertical direction, so that all the first regions do not contain the straight lines (para. [0197] - [0202]; Fig. 18B).

With respect to claim 4, please refer to rejection for claim 1.

With respect to claim 5, please refer to rejection for claim 1.

With respect to claim 6, please refer to rejection for claim 2.

With respect to claim 7, please refer to rejection for claim 3.

With respect to claim 8, please refer to rejection for claim 2.

With respect to claim 9, please refer to rejection for claim 3.

Conclusion

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
